story dramatisation • **verbal skills** • **art and crafts** • **indoors**

1. Create a Play Area
Set up a dramatic play space with props made together with the children, using materials you provide. You can find some "*Story suggestions*" in the Downloadable Materials to develop your story.

2. Act Out the Story
Re-enact the story to build memory, drama, speaking, and movement skills. You may use the "*Face masks*" from the Downloadable Materials. Highlight the contrast between when the animals were showing off and when they worked as a team.
