

Children appreciate soil
and how we take it for
granted

Vanishing Homes 2

Keywords video • outdoor survey

- 1 This activity focuses on soil as the common and all-important part of our land habitats. Watch the video *Soil* (in Downloadable Material).
- 2 Find the worksheet *My Soil Survey* in the **Resource File** and make copies for your students. You are going to make a survey of soil patches/areas in your school and the surrounding streets. The walk needn't be long, but try to include a mix of areas with and without soil.
- 3 Plan a route in your neighbourhood, starting from within your own school. Walk the route, filling in the worksheet with your observations, looking at tree troughs, traffic islands, public spaces, front gardens, and so on.

Use the Dinja Waħda Notice Board and tell the school about what you're doing.

Send photos of children
