

Children learn about
natural habitats and
human influence

Vanishing Homes 1

Keywords videos • habitat lessons • outdoor game

- 1 Use the videos (in Downloadable Material) to create lessons in your preferred way. The habitats are:
 - cliffs (rdum, sies)
 - fields (għelieqi)
 - woodland (bosk)
 - rocky land (xagħri)
 - gardens (gonna)
 - valleys (widien)
- 2 Make sure your delivery includes student interactions with the subject and sharing of experiences. The key takeaways are:
 - the word HABITAT and a discussion about places they know and what habitat/s they contain
 - how each habitat is home to many plants and animals
- 3 Play the *Vanishing Homes Game* from the **Resource File**. The game is based on a class of 25 students. Adapt the numbers to your class. Though fun in itself, the game deals with habitat destruction, one of the biggest threats to wildlife in the Maltese Islands (and the rest of the world too). It is important that the children understand the message in the game.

Use the Dinja Wahda Notice Board and tell the school about what you're doing.

Send photos of

- ☐ your habitats lesson/s with the videos
- ☐ the game in progress
